50 +
years

200
schools

6
continents

50
countries

"There is more in us than we know. If we can be made to see it, perhaps for the rest of our lives we will be unwilling to settle for less."

Kurt Hahn

Living the Round Square IDEALS

Internationalism

We discover and embrace similarities and differences between cultures and nationalities, promoting lasting understanding, tolerance and respect.

Democracy

We develop a personal compass for equality, fairness, justice, self-discipline, responsibility and a desire to do what is right for the greater good.

Environmentalism

We broaden our horizons to understand mankind's place in the universe, the forces that shape our surroundings and the impact we have.

Adventure

We push ourselves beyond perceived limits, cross boundaries and discover that we are capable of more than we thought possible.

Leadership

We recognise that successful leaders are driven by a desire to be of service to others and to nurture, guide, develop and help them to improve and succeed.

Service

We are ready and willing to volunteer and be involved where we are needed, applying and developing our skills and understanding in support of individuals and communities both close to home and further afield.

Round Square is a global network of innovative schools in 50 countries on six continents that share a passion for experiential learning and character education. The Round Square approach is built around six themes - our IDEALS - International Understanding, Democracy, Environmental Stewardship, Adventure, Leadership and Service.

The Round Square Discovery Framework offers a structure that connects the IDEALS with twelve Discoveries that students explore on their learning journey: inquisitiveness, tenacity, courage, compassion, inventiveness, ability to solve problems, self-awareness, sense of responsibility, appreciation for diversity, commitment to sustainability, communication and team-working skills.

Within the Framework, students and faculty in Member Schools are encouraged to discover and develop their own capabilities through a range of experiences, activities, collaborative projects and challenges, both in and beyond the curriculum, including international, regional and local social service projects, exchanges and conferences.
